

RESTORE DIGESTIVE BALANCE. FEEL COMFORTABLE AGAIN

Digestive Wellness • Gut Restoration • Fluid Balance.

Debloat

WHAT IS THE DEBLOAT INFUSION?

Digestive discomfort isn't always caused by food alone. Stress, inflammation, nutrient deficiencies, travel, illness, and disruptions in the gut microbiome can all contribute to bloating, abdominal fullness, and irregular digestion.

The Debloat Infusion delivers key nutrients involved in intestinal repair, digestive function, electrolyte balance, and cellular metabolism, helping restore the conditions needed for a healthier digestive system.

WHAT YOU MAY NOTICE

- Less abdominal fullness and bloating
- Greater digestive comfort after meals
- Improved hydration and electrolyte balance
- More regular bowel habits
- Reduced digestive stress during travel, illness, or dietary changes
- Improved energy associated with better nutrient utilization

WHO BENEFITS MOST?

- Individuals experiencing chronic bloating or abdominal discomfort
- Those with food sensitivities or digestive irritation
- Patients recovering from gastrointestinal illness
- Individuals with high stress levels that affect digestion
- People looking to support gut health while optimizing overall wellness

WHAT'S IN THE BLEND?

Glutamine - A primary fuel source for intestinal cells that helps maintain the integrity of the gut lining.

Magnesium Chloride - Supports smooth muscle function, hydration, and healthy digestive motility.

Zinc - Essential for intestinal tissue repair, immune regulation, and maintenance of the gastrointestinal barrier.

Vitamins B1, B2, B3, B5, B6 - Provide critical cofactors for energy production, nervous system function, and digestive metabolism.
