

ELEVATE YOUR ENERGY. SHARPEN YOUR FOCUS. POWER UP.

Energy • Mental Clarity • Metabolism Boost

Ignite

WHAT IS THE IGNITE INFUSION?

The Ignite Infusion is formulated to support energy production, mental focus, and overall vitality. Combining methylated vitamin B12, a comprehensive B-complex, and taurine, this infusion delivers nutrients involved in cellular energy metabolism, nervous system function, and cognitive performance.

Whether you're navigating a demanding schedule, recovering from stress, or looking to optimize daily performance, Ignite helps provide the nutritional foundation needed to support both physical and mental endurance.

WHAT YOU MAY EXPERIENCE

- Increased energy and stamina
- Improved mental clarity and concentration
- Enhanced productivity and focus
- Better resilience during periods of physical or mental stress
- Improved mood and overall sense of well-being
- Sustained energy without reliance on stimulants

WHO MAY BENEFIT THE MOST?

- Individuals experiencing fatigue, low energy, or burnout
- Professionals with demanding work schedules
- Students or individuals seeking cognitive support
- Patients recovering from periods of physical or emotional stress
- Individuals with increased nutrient demands or B-vitamin depletion
- Anyone looking to optimize daily performance, focus, and vitality

WHAT'S IN THE INFUSION?

Methylcobalamin - The active form of B12 that supports energy, focus, and neurological wellness.

B-Complex Vitamins - A comprehensive blend of B vitamins that helps fuel metabolism and cellular energy production.

Taurine - Supports cognitive performance, cellular resilience, and overall vitality.
